# TOA WoodStain

TOA Woodstain is an ultra premium wood coating specially formulated using Urethane Alkyd base high gloss enamel finish for protection of wooden surfaces. It has good water resistance, UV protection, anti fungus properties. It is fast drying and is easily recoatable. It is suitable for both interior and exterior wooden surfaces where maintaining the texture of wood grain is highly desirable. It is available in both gloss and matt finishing and it is also available in more than 60 shades under our TOA Colour World (TCW) tinting machines.

## • Titanium Nano Technology

TOA Woodstain contains Titanium Nano Technology from Germany and it is one of the strongest element to withstand heat and is 45% lighter than steel. It is normally used in the manufacturing of planes and spacecrafts. *(Mengandung Teknologi Nano Titanium dari Jerman dan ia adalah salah satu elemen paling kuat untuk menahan haba dan 45% lebih ringan daripada keluli. Ia biasanya digunakan dalam pembuatan kapal terbang dan kapal angkasa.)* 来自德国，它是最耐热的元素之一，比钢轻 45%。它通常用于制造飞机和航天器。

## Application guidelines (Garis panduan penggunaan / TOA Woodstain 使用指南)

WoodStain	Finishing	Number of coats	Theoretical Coverage (m <sup>2</sup> /L/coat)	Thining ratio	Drying time (hour)	Thinner
	Gloss	2 - 3	15 - 16	10%	3 - 4	 Thinning is not recommended, if necessary, add-in 10% Turpentine is the maximum thinning ratio
	Matt	2 - 3	15 - 16	10%	3 - 4	 Thinning is not recommended, if necessary, add-in 10% Turpentine is the maximum thinning ratio

**New Wood Surfaces :** Generally must be clean, dry and free from oil, dirt, wax, grease or other contaminants. Recommend to test color on wood before decide the shade as final color shade depends on the type of wood applied. If gum is presence on surface, it must be clean by lacquer thinner. For recoating, the surface must be rub and clean.

**Previously Painted Wood Surfaces :** Must thoroughly rubbed down using suitable sandpaper and then dusted off before applying TOA Woodstain.
