

ROAD LINE PAINT

Abrasion Resistant Road Marking

TOA ROAD LINE PAINT is a high performance alkyd modified reflective and non-reflective road marking paint with excellent durability and obliterating power.

Recommended Use: **ROAD LINE PAINT** is used as self priming and finishing coat for bitumen or asphalt surfaces. It is suitable for both interior and exterior uses such as car park marking, directional arrow marking, lot numbering, divider line marking, etc.

Technical Information

Finish	Matt
Vehicle type	Solvent based
Colour	White, Black & Yellow (Reflective & Non-Reflective)
Volume Solids	Approx. 50% (nominal)
Flash Point	35°C
Specific Gravity	1.47 – 1.52 (Depends on color)
Viscosity	70 – 90 KU
Chemical Resistance	Not recommended if spillage of solvent is likely
Water Resistance	Good
Shelf Life	24 months

Application Details

Application methods	Brush or roller
Mixing Ratio (by volume)	The paint is ready for use after thorough stirring. For conventional air spray, 30% thinning is recommended
Pot Life	NA (single pack)
Thinner / Cleaner	Pegasol / Solvesso
Dry to Touch	20 to 30 minutes
Dry to Overcoat	1 hour (maximum indefinite)
Practical Spreading Rate	8 – 9 m ² / Litre
Recommended Dry Film Thickness (dft)	50 – 60µ

Technical Data Sheet – ROAD LINE PAINT

Surface Preparation

Surface must be sound, clean, dry and free from all defective or poor adhering dirt. Rubbish, dust, sand, etc

Typical Painting System

<u>Substrate</u>	<u>Primer</u>	<u>Finishing Coat (2 coats)</u>
Bitumen or Asphalt	Not Required	TOA ROAD LINE PAINT

Storage & Packaging

Storage	The product must be kept in a cool and well ventilated place protected from direct sunlight Container must be tightly sealed
Handling	Handle with care. Stir well before use
Packing size	5 Litres
